

Entrance Requirements

The master’s programme “European Studies – Management of EU Projects” at the University of Applied Sciences is open to anyone who has completed a course of at least three years at a recognised tertiary institute of higher education in Austria or abroad.

Requirements of the completed course:

- a specialist education of at least 90 ECTS credit points. The following courses are particularly suitable: economics, social studies, law, humanities, science and engineering.
- an academic paper of at least 9 ECTS credit points.

Students attend foundation courses in economics and law (business administration, law and legal methods, European public management, economics) during the first year to acquire a fundamental understanding of these subjects and to compensate for any lack of previous knowledge.
