

MASTER EUROPEAN STUDIES - MANAGEMENT OF EU PROJECTS

Master's Degree Programme

European Studies – Management of EU Projects

„The EU needs highly qualified experts and EU Project Managers who want to play an active role in shaping the European Union. Our graduates are well equipped to master the diverse challenges of the future EU.“

Programme Director Gerda Füricht-Fiegl

The Master's Programme is designed for participants from a wide variety of educational, professional, and national backgrounds and gives you a broad vision of the European Union. It brings forth experts in EU policies and management of EU projects, combining theory, research and practice. The comprehensive and modularised curriculum is tailor-made for those who see their professional future in the EU context. It provides our graduates with the knowledge and skills to pursue an EU career.

Fachhochschule Burgenland

FH BURGENLAND. UNITING THE EXCEPTIONAL.

The University of Applied Sciences Burgenland (FH Burgenland) offers bachelor's and master's programmes in five departments at two campuses in Eisenstadt and Pinkafeld:

- Business Studies
- Information Technology
- Social Work
- Energy & Environment
- Health

We focus on future-relevant topics; personal support and practical orientation are priorities in teaching – and all that comes without tuition fees!

Exceptional Growth

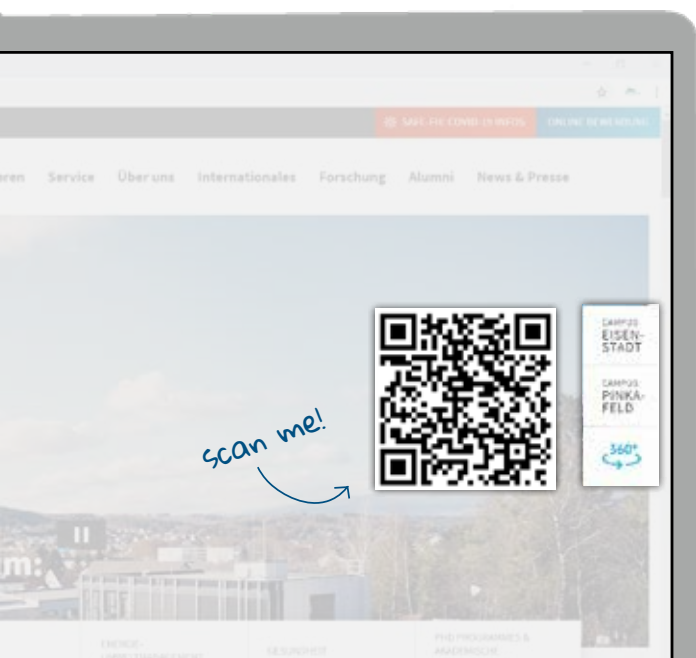

A unique community of expert teaching staff (from the respective fields) accompanies and supports future leaders along their path to success – a path characterised by interculturalism, regionality, research and innovation.

A Lifelong Network

More than 10,000 students have graduated from FH Burgenland; upon graduation they have not only received their diploma, authorising them to hold an academic title, but also the positive outlook necessary for their future career.

Follow us on our virtual tour around the study center in Eisenstadt:

The Campus in Eisenstadt

With approximately 10,000 square metres of space, the Eisenstadt campus offers both auditoriums and classrooms of various sizes, as well as a well-stocked library to facilitate studies. On-campus instruction is further enhanced by research in the media lab or in the market research labs. Common areas allow to enjoy short breaks and interaction with other students. A dormitory and cafeteria are located on the campus; parking is available in front of the university building. A fitness studio, stores and restaurants are within walking distance.
