

## Doctoral candidate Silke Palkovits-Rauter

Prof. (FH) Mag. Silke Palkovits-Rauter, born in 1976, completes the management team of the University of Applied Sciences Burgenland since 2013 and is director of studies of the master's degree program "Business Process Engineering & Management".

She studied International Business Economics at the University of Vienna and graduated in 2001. She gained professional experience in IT project management and business process management within different positions. Scientific publications in the field of process management within EU-funded projects were published between 2001 and 2005, amongst others as research officer at the University of Surrey, UK.

She teaches on the topics of project and process management and conducts researches in national and international projects. The exchange of knowledge and experience with the students stimulates her to explore new fields of research

Mrs. Palkovits-Rauter started with the PhD study in 2015 within the International Joint Cross-Border PhD Programme in International Economic Relations and Management at the University of Applied Sciences Burgenland.

Public defence of her doctoral dissertation thesis with the title

## Influences on future development of business process management
